

Dear parents and caregivers,

This week, October 20–24, our school is celebrating Digital Citizenship Week, and your child is taking part in classroom lessons from **Common Sense Media**. Common Sense helps kids develop the foundational skills and mindsets they need to thrive in our tech-filled world.

WHAT WILL STUDENTS BE LEARNING?

Each day this week we will explore themes and lessons about digital literacy and well-being.

 Monday	 Tuesday	 Wednesday	 Thursday	 Friday
Critical Thinking Students learn to question and verify what they see online, not just accept it at face value.	Curiosity Kids explore how to learn and discover new things online safely and thoughtfully.	Creativity Kids learn to express themselves and share their ideas responsibly online.	Human Connection Kids explore why face-to-face relationships matter, even in a digital world.	Healthy Habits Kids begin building balanced, sustainable habits around technology use.

Kids today may seem like experts at using technology, but they still need guidance from their parents and teachers to develop skills that will serve them for life—no matter what new technology emerges. That's what digital literacy is all about: the ability to think critically, build healthy relationships, create responsibly, and explore thoughtfully in a tech-filled world.

WHAT FAMILIES CAN DO

Common Sense Media provides resources to help you support your child's learning. As we teach these lessons in class, we'll be sending home tip sheets, videos, and activities for you to continue the conversation and reinforce these skills.

Please feel free to contact us if you have any questions. Working together, we can help our kids think critically and use tech in positive, creative, and powerful ways.

Sincerely,

Dear parents and caregivers,

This week, October 20–24, our school is celebrating Digital Citizenship Week, and your child is taking part in classroom lessons from **Common Sense Media**. Common Sense helps kids learn habits and skills not just to navigate technology, but also to thrive in an always-on world.

WHAT WILL STUDENTS BE LEARNING?

Each day this week we will explore themes and lessons about digital literacy and well-being.

 Monday	 Tuesday	 Wednesday	 Thursday	 Friday
Critical Thinking Students learn to question and verify what they see online, not just accept it at face value.
